

LNK2 WiFi is Now Compatible with LX-IVM and LXME2 Series Commercial Controllers

Remote Monitoring and Management Made Easy!

The newly updated Rain Bird app for iOS enables the **LNK2** WiFi module to be used with the **LX-IVM** and **LXME2** series controllers. This new capability allows users to set and run up to 40 programs, run manual irrigation, manage seasonal adjustments, and more through the app — with or without access to WiFi.

LNK2 with LX-IVM and LXME2 series controllers capabilities is currently supported on Apple Devices ONLY.

Android compatibility is coming soon
